# BENEFITS

## VALUE

Pacshore Quartz offers both quality and value, so you don't have to compromise a great look for an affordable price.

## CONSISTENCY

Pacshore Quartz is produced under strict quality control procedures which result in consistent colors, textures and patterns. Unlike natural stone, there are no flaws in the material so you can maximize use of the whole slab.

## DURABILITY

Pacshore Quartz slabs are made by combining 93% natural quartz stone with 7% resin binder and colorant. This creates a very durable material which is stronger than marble.

## HYGIENIC

Pacshore Quartz slabs are manufactured to be hygienic and to reduce the opportunity for bacteria to grow. This makes Pacshore Quartz slabs appropriate for food preparation and consumption.

## CLEANING & MAINTENANCE

For regular cleaning, use mild soap, soft cloth, and warm water, rinse the surface thoroughly. Do not use abrasive, strong alkaline, acid, free radicals, oxidizers or cleaners. Pacshore Quartz is scratch resistant, but we do not recommend cutting or chopping directly on the surface. The use of a chopping board is strongly recommended. Please avoid placing hot pots, pans or implements directly onto your Pacshore Quartz surface. Surfaces can be damaged by sudden and/or rapid change of temperature, especially near the edges, as well as direct and/or sustained heating of top. Pacshore Quartz is not intended for outdoor use or for use in direct UV light.

## SCRATCH RESISTANT

Pacshore Quartz is manufactured to be scratch resistant, to help keep the surface looking like new. However, we do not recommend putting sharp objects in direct contact with the surface.

# 15 YEAR WARRANTY

# THICKNESS

Pacshore Quartz slabs are available in 3cm thickness and 2cm on special orders.

# WARRANTY & MAINTENANCE

Pacshore Quartz offers the consumer a 15 year limited warranty. Pacshore Quartz presents a low maintenance, high quality product suitable for kitchens, baths and other applications.

Pacshore Quartz countertops only need mild soap and water for cleaning. Please avoid using sharp objects, high temperatures, and exposure to solar radiation.

# CERTIFICATES

Pacshore Quartz is certified to ensure maximum safety and protection.

## NSF

Pacshore Quartz was evaluated and certified by NSF international as a safe material for direct food contact. This gives the assurance of maximum safety and protection to our customers and final consumers.

## GREENGUARD

The GREENGUARD Indoor Air Quality Certification Program identifies low-emitting materials, finishes and products for indoor environments. Performance-based, field-validated standards are used to define products and materials with low chemical and particle emissions for indoor use. Products are required to be tested annually for more than 10,000 individual volatile organic compounds (VOCs).

GREENGUARD Children & Schools Certification Program was developed by evaluating chemical sensitivities of children along with unique building characteristics of schools. It presents the most stringent product emissions criteria to date for low-emitting materials.
