

Pacshore Quartz slabs measure 126" x 63" for all colors apart from Calacatta Kauai (122" x 63"). Pacshore Quartz slabs are available in two thicknesses: 2cm and 3cm.

## DIMENSIONS

## WARRANTY & MAINTENANCE

Pacshore Quartz offers the consumer a 15 year warranty. Pacshore Quartz presents a low maintenance, high quality product suitable for kitchens, baths and other applications.

Pacshore Quartz countertops only need mild soap and water for cleaning. Please avoid using sharp objects, high temperatures, and exposure to solar radiation.

## CERTIFICATES

Pacshore Quartz is certified to ensure maximum safety and protection.

**NSF**  
Pacshore Quartz was evaluated and certified by NSF International as a safe material for direct food contact. This gives the assurance of maximum safety and protection to our customers and final consumers.

**GREENGUARD**  
The GREENGUARD Indoor Air Quality Certification Program identifies low-emitting materials, finishes and products for indoor environments. Performance-based, field-validated standards are used to define products and materials with low chemical and particle emissions for indoor use. Products are required to be tested annually for more than 10,000 individual volatile organic compounds (VOCs).

**GREENGUARD Children & SchoolsSM**  
Certification Program was developed by evaluating chemical sensitivities of children along with unique building characteristics of schools. It presents the most stringent product emissions criteria to date for low-emitting materials.

## BENEFITS

**VALUE**  
Pacshore Quartz offers both quality and value, so you don't have to compromise a great look for an affordable price.

**CONSISTENCY**  
Pacshore Quartz is produced under strict quality control procedures which result in consistent colors, textures and patterns. Unlike natural stone, there are no flaws in the material so you can maximize use of the whole slab.

**DURABILITY**  
Pacshore Quartz slabs are made by combining 93% natural quartz stone with 7% resin binder and colorant. This creates a very durable material which is stronger than granite or marble.

**HYGIENIC**  
Pacshore Quartz slabs are manufactured to be hygienic and to reduce the opportunity for bacteria to grow. This makes Pacshore Quartz slabs appropriate for food preparation and consumption.

**MAINTENANCE**  
Natural stone requires regular sealing to prevent staining and the growth of bacteria. Pacshore Quartz is non-porous and does not require sealing or other routine maintenance to maintain its beauty and functionality.

**CLEANING**  
Cleaning Pacshore Quartz is very simple - gentle soap and water are all you need to keep it looking as good as new.

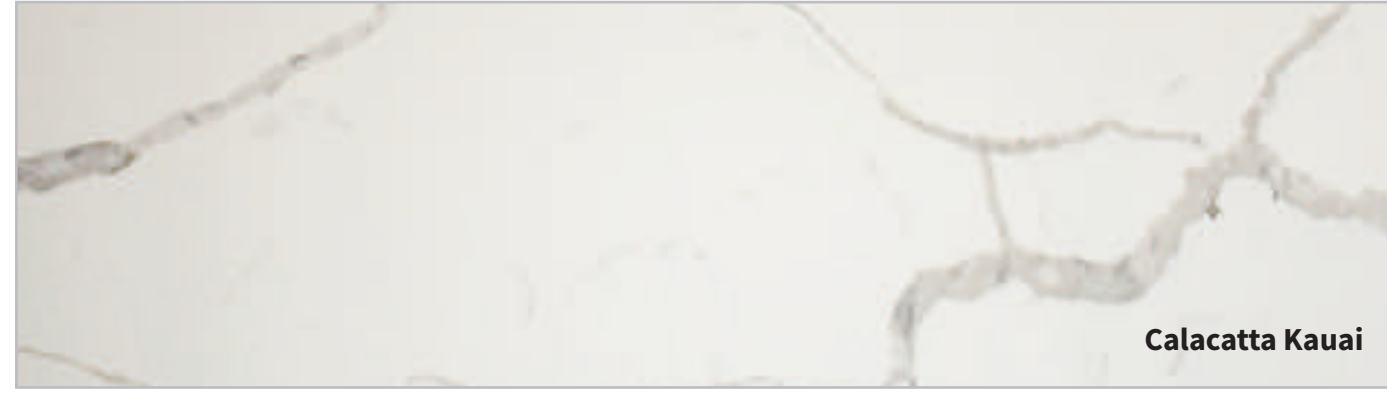

**SCRATCH RESISTANT**  
Pacshore Quartz is manufactured to be scratch resistant, to help keep the surface looking like new. However, we do not recommend putting sharp objects in direct contact with the surface.
