

# ASID OK CEU at Pacshore OKC

July 2021

On July 15th our OKC location held a Natural Stone CEU and presented it to our local ASID chapter at our showroom. Andre Zucchi from Zucchi Luxury Stones out of Brazil presented key info about natural stone in which our attendees were very involved in the presentation and gave raving reviews afterwards. We hosted several big name local designers as well as others from related trades. Andre also gave a bonus presentation that talked about the evolution of marble and specifically how Brazil has become a larger distributor of marble. Everyone who attended was grateful for the outpouring of knowledge by Andre and the entire Pacific Shore Stones team and left with a better understanding of what we do and why we love natural stone so much!
