PACSHORE QUARTZ

BENEFITS

VALUE
Pacshore Quartz offers both quality and value, so you don't have to compromise a great look for an affordable price.

CONSISTENCY
Pacshore Quartz is produced under strict quality control procedures which result in consistent colors, textures, and patterns. Made to resemble natural stone, the Pacshore Quartz product line features designs that mimic classic Italian marbles.

DURABILITY
Pacshore Quartz slabs are made by combining 93% natural quartz which is one of the hardest minerals known to man with 7% resin binder and colorant. This creates a beautiful material that is as durable as natural stone.

HYGIENIC
Pacshore Quartz slabs are manufactured to be hygienic and to reduce the opportunity for bacteria to grow due to the fact that they are non-porous. This makes **Pacshore Quartz** slabs perfect for food preparation and consumption because liquid and moisture placed on the surface of the countertop are not absorbed.

SCRATCH RESISTANT
Pacshore Quartz is manufactured to be scratch resistant, to help keep the surface looking like new. However, we do not recommend putting sharp objects in direct contact with the surface.

CLEANING & MAINTENANCE

For regular cleaning, use mild soap, soft cloth, and warm water, rinse the surface thoroughly. Do not use abrasive, strong alkaline, acid, free radicals, oxidizers or cleaners. **Pacshore Quartz** is scratch resistant, but we do not recommend cutting or chopping directly on the surface. The use of a chopping board is strongly recommended. Please avoid placing hot pots, pans or implements directly onto your **Pacshore Quartz** surface. Surfaces can be damaged by sudden and/or rapid change of temperature, especially near the edges, as well as direct and/or sustained heating of the top. **Pacshore Quartz** is not intended for outdoor use or for use in direct UV light.

THICKNESS

Pacshore Quartz slabs are available in 3cm thickness and 2cm on special orders.

WARRANTY & REGISTRATION

Pacshore Quartz offers the consumer a 15 year limited warranty. Check our warranty and register your **Pacshore Quartz** slabs at www.pacshorequartz.com.

CERTIFICATES

Pacshore Quartz is certified to ensure maximum safety and protection.

NSF
Pacshore Quartz was evaluated and certified by NSF international as a safe material for direct food contact. This gives the assurance of maximum safety and protection to our customers and final consumers.

GREENGUARD
The GREENGUARD Indoor Air Quality Certification Program identifies low-emitting materials, finishes and products for indoor environments.Performance-based, field-validated standards are used to define products and materials with low chemical and particle emissions for indoor use. Products are required to be tested annually for more than 10,000 individual volatile organic compounds (VOCs).

GREENGUARD Children & Schools Certification Program was developed by evaluating chemical sensitivities of children along with unique building characteristics of schools. It presents the most stringent product emissions criteria to date for low-emitting materials.
