

PACSHORE TEAM ATTENDS KBIS

February 2023

Pacific Shore Stones management team had the opportunity to attend KBIS & TISE at the beginning of February. It made for a great start to the year, seeing all the best in kitchen and bath design, especially by the quartz brands we distribute such as Caesarstone, Cambria, Hanstone, Dekton, and more! Caesarstone launched their latest porcelain line and Hanstone showcased their newest colors, Le Blanc and Matterhorn that are now available at our showrooms nationwide. It was exciting to see the brands we proudly represent showing off their innovative products and we can't wait for our clients to get their hands on them. Porcelain is taking off in our industry and to see such a well-known and popular brand such as Caesarstone joining in on offering the product is exciting to say the least! Following our time at KBIS, our team had the opportunity for all managers nationwide to join together and strategize plans for the year. We always strive to offer the best products, at every price point, and to be a wealth of knowledge to our customers, so we took advantage of our time to meet and become even better stone distributors. The team left feeling inspired and eager to hit the ground running, ready to tell all clients about the design trends to follow the show this year!
