

# CAMBRIA LAUNCH PARTY

June 2022

This past summer, our Sacramento team had the opportunity to host a launch party in collaboration with Cambria. The theme was an all-white, grand event to celebrate the launch of their all-new Inverness Frost design. Inverness frost portrays “sophisticated off-white veins across a cool white canvas with lively intensity. Debossing throughout the veining contrasts with the smoothness of the background, giving the design a gently textured composition and beautifully organic quality.” The slabs were on display throughout our showroom so that the 80 or so contractors and designers could get a good look at the new offering while sipping on our signature Pacshore Prosecco from the mobile carriage bar.
